## Independent Auditor's Report

Board of Education  
Park City School District

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate discretely presented component units and remaining fund information of Park City School District (the District) as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of District management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, the aggregate discretely presented component units and remaining fund information of the District as of June 30, 2007, and the respective changes in financial position thereof and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 4, 2007 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's discussion and analysis which follows this report is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial statements and schedules, and other information are presented for purposes of additional

analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The other information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

*Aguirre & Company, P.C*

October 4, 2007

## Management's Discussion and Analysis

This section of Park City School District's (District) financial report presents management's discussion and analysis of the District's financial performance during the year ending June 30, 2007.

### Financial Highlights

- The District is dependent on revenues generated by property taxes. Property tax revenues increased by 19.0% in 2007 as a result of changes in tax rates and growth in taxable property and growth in the value of taxable property.
- The District's assets exceeded liabilities by \$108.9 million at the close of the most recent fiscal year.
- During the year, expenses were \$13.9 million less than the \$56.3 million generated in taxes and other revenues for governmental activities.
- District student enrollment decreased by 31 students to a total of 4,336 students as of October 1, 2006.
- The District continues to improve buildings for enrolled students and to provide housing for the various programs throughout the District. Construction projects under way during the year total \$28.5 million, of which \$20.2 million was completed at June 30, 2007.

### Overview of the Financial Statements

The discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of the assets and liabilities of the District, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the net assets of the District changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements can be found on pages 11 through 12 of this report.

The government-wide financial statements of the District are divided into two categories:

- **Governmental activities.** Most of the District's basic services are included here, such as instruction, various supporting services, food services, community services, and interest on long-term liabilities. Property taxes and state and federal grants finance most of these activities.
- **Component units.** The District includes other entities in the report, namely, the Park City Education Foundation and certain parent teacher organizations. Although legally separate, these component units are included because they are independent nonprofit organizations established to support schools and programs within the District.

**Fund financial statements.** A *fund* is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories, namely, governmental funds and fiduciary funds.

- **Governmental funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains five individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the debt service fund, and the capital projects fund, each of which are considered to be major funds. Data from the other two governmental funds are combined into a single, aggregated presentation. Individual fund data for each of the governmental funds is provided in the form of *combining and individual statements and schedules* elsewhere in this report.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 13 through 17 of this report.

- **Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the governmental entity. Fiduciary funds are *not* reflected in the government-wide financial statement because the District cannot use these funds to finance its operations.

The District uses an agency fund to account for resources held for student activities and groups. The basic fiduciary fund financial statement can be found on page 18 of this report.

**Notes to the basic financial statements.** The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 19 through 30 of this report.

**Additional information.** The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the notes to the basic financial statements. Combining and individual fund statements and schedules can be found on pages 31 through 38 of this report.

Also, selected financial and tax information is provided as other information, presenting 5-year comparisons. This other information can be found on pages 39 through 44 of this report.

## Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$108.9 million at the close of the most recent fiscal year.

**PARK CITY SCHOOL DISTRICT'S Net Assets**  
**June 30, 2007 and 2006**  
(in millions of dollars)

	Governmental activities		Total change 2007-2006
	2007	2006	
Current and other assets	\$ 78.2	\$ 79.8	\$ (1.6)
Capital assets	116.2	106.7	9.5
Total assets	<u>194.4</u>	<u>186.5</u>	<u>7.9</u>
Current and other liabilities	48.2	48.9	(0.7)
Long-term liabilities outstanding	37.3	42.6	(5.3)
Total liabilities	<u>85.5</u>	<u>91.5</u>	<u>(6.0)</u>
Net assets:			
Invested in capital assets, net of related debt	79.2	64.3	14.9
Restricted	21.5	25.0	(3.5)
Unrestricted	8.2	5.7	2.5
Total net assets	<u>\$ 108.9</u>	<u>\$ 95.0</u>	<u>\$ 13.9</u>

- The largest portion of the District's net assets (73%) reflects its investment in capital assets (e.g., land, buildings and improvements, and equipment and busses net of accumulated depreciation), less any related debt (general obligation bonds payable) used to acquire those assets that are still outstanding net of unspent bond proceeds. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.
- An additional portion of the District's net assets (20%) represents resources that are subject to external restrictions on how they may be used. The majority of the restricted balance is for capital projects.
- The remaining balance of *unrestricted net assets* (7%) may be used to meet the District's obligations to students, employees, and creditors and to honor next year's budget.

At the end of the current fiscal year, the District is able to report positive balances in all three categories of net assets. The same situation held true for the prior fiscal year.

- Net assets invested in capital assets, net of related debt increased by \$14.9 million during the year ended June 30, 2007. This increase resulted primarily from \$11.2 million spent on new construction projects and \$5.5 million in payments of bond principal.
- Restricted net assets decreased by \$3.5 million during the year ended June 30, 2007. This decrease resulted primarily from the use of resources restricted for capital projects.

The District's net assets increased by \$13.9 million during the current year. The following discussion and analysis on governmental activities focuses on this increase:

**Governmental activities.** The key elements of the increase of the District’s net assets for the year ended June 30, 2007 are as follows:

- The largest net dollar increase in revenues is property taxes. Property tax revenues increased by \$6.9 million or 19.0% in 2007 as a result of changes in tax rates and growth in taxable property and growth in the value of taxable property.

**PARK CITY SCHOOL DISTRICT'S Changes in Net Assets**  
**Years Ended June 30, 2007 and 2006**  
(in millions of dollars)

	Governmental activities		Total
	2007	2006	change 2007-2006
<b>Revenues:</b>			
Program revenues:			
Charges for services	\$ 1.8	\$ 1.5	\$ 0.3
Operating grants and contributions	4.2	5.6	(1.4)
General revenues:			
Property taxes	43.4	36.5	6.9
Federal and state aid not restricted to specific purposes	3.1	1.9	1.2
Earnings on investments	2.1	1.6	0.5
Miscellaneous	1.7	1.6	0.1
Total revenues	<u>56.3</u>	<u>48.7</u>	<u>7.6</u>
<b>Expenses:</b>			
Instructional services	25.2	24.6	0.6
Supporting services:			
Students	1.3	1.3	-
Instructional staff	0.8	0.7	0.1

Operation and maintenance of facilities	4.6	4.9	(0.3)
Transportation	1.9	1.9	-
School lunch services	1.4	1.4	-
Community services	1.2	1.2	-
Interest on long-term liabilities	1.6	1.8	(0.2)
Total expenses	<u>42.4</u>	<u>41.8</u>	<u>0.6</u>
<b>Increase in net assets</b>	13.9	6.9	7.0
<b>Net assets - beginning</b>	<u>95.0</u>	<u>88.1</u>	<u>6.9</u>
<b>Net assets - ending</b>	<u>\$ 108.9</u>	<u>\$ 95.0</u>	<u>\$ 13.9</u>

- State aid is based primarily on weighted pupil units (WPU) and other appropriations. If a student is in membership a full 180 days, the state awards the District one WPU. The state guarantees that if local taxes do not provide money equal to the WPU, the state will make up the difference with state funding. Certain students receive a weighting greater than one. The value of the WPU increased by 6.0% during the year ended June 30, 2007 (\$2,417 during 2007 as compared to \$2,280 in 2006). With the student population decline, an increase in the value of the WPU, and the effect of increased local taxes, state revenue decreased by \$35,937.

**Park City School District  
Revenues by Source - Governmental Activities  
Year Ended June 30, 2007**

- Instructional services represent the largest dollar increase in expense of \$1.4 million due to the number of teachers employed by the District, increases in salaries, and increases in employee benefits.

**Park City School District  
Expenses by Function - Governmental Activities  
Year Ended June 30, 2007**

**Financial Analysis of the District's Funds**

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. As the District completed the year, its governmental funds reported a combined fund balance of \$29.3 million, \$1.3 million less than the previous year. Included in this year's change in the combined fund balance is a decrease in the fund balance of the capital projects fund of \$3.5 million; this year's change also includes an increase in the fund balance of the general fund of \$2.0 million. In addition, the following other changes in fund balances should be noted:

- Expenditures for general District purposes totaled \$33.3 million, an increase of 2.2% during the current fiscal year. This compares to a 13.4% increase in 2006. Instructional services represent 63.8% of general fund expenditures.
- General fund salaries totaled \$20.7 million while the associated employee benefits of retirement, social security, and insurance (health and accident, industrial, and unemployment) added \$8.4 million to arrive at 87.6% of total general fund expenditures.

Governmental funds report the differences between their assets and liabilities as fund balance, which is divided into reserved and unreserved portions. Reservations indicate the portion of the District's fund balances that are not available for appropriation. The unreserved fund balance is, in turn, subdivided between designated and undesignated portions. Designations reflect the District's self-imposed limitation on the use of otherwise available expendable financial resources in governmental funds. Undesignated balances in the general fund are required by state law to be appropriated in the following year's budget. Fund balances of debt service, capital projects, and other governmental funds are restricted by state law to be spent for the purpose of the fund and are not available for spending at the District's discretion. \$3.3 million of the fund balance of the general fund is designated for the following purposes:

- *Designation for undistributed reserve* of \$1.7 million or 5.0% of general fund budgeted expenditures. As allowed by state law, the District has established an undistributed reserve within the general fund; this amount is set aside for contingencies or possible reductions in state funding and is not to be used in the negotiation or settlement of contract salaries. The maintenance of a sufficient reserve is a key credit consideration in the District's excellent bond rating of Aa2 given by credit rating agencies.
- *Designation for employee benefits* of \$1.5 million for voluntary retirement incentives and \$114,775 for unpaid vacation.

### **General Fund Budgetary Highlights**

During the year, the Board revised the District's budget. Budget amendments were to reflect changes in programs and related funding. The difference between the original budget and the final amended budget was a decrease of \$0.8 million or 2.2% in total general fund expenditures.

During the year, final budgeted revenues were more than original budgetary estimates by a net of \$0.7 million or 2.0%, to account for anticipated increases in property tax revenue and decreases in state sources.

Even with these adjustments, actual expenditures were \$0.4 million less than final budgeted amounts. The most significant variance was \$0.2 million in instruction expenditures. Resources available for appropriation were \$0.5 million below the final budgeted amount primarily due to negative variance in federal sources. Variances normally result from expenditure-driven federal and state grants that are included in the budgets at their full amounts. Such grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met; unspent grant amounts are carried forward and included in the succeeding year's budget. Therefore, actual grant revenues and expenditures are normally less than the amounts budgeted.

**Capital Asset and Debt Administration**

**Capital Assets.** The capital projects fund is used to account for the costs incurred in acquiring and improving sites, constructing and remodeling facilities, and procuring equipment necessary for providing educational programs for all students within the District. The District has various projects in process at June 30, 2007 with an anticipated total cost of \$28.5 million, of which \$20.2 million was complete at that date.

Capital assets at June 30, 2007 and 2006 are outlined below:

**PARK CITY SCHOOL DISTRICT'S Capital Assets**  
**June 30, 2007 and 2006**  
(net of accumulated depreciation, in millions of dollars)

	Governmental activities		Total
	2007	2006	change 2007-2006
Land	\$ 4.9	\$ 4.9	\$ -
Construction in progress	20.2	9.0	11.2
Buildings and improvements	88.6	90.8	(2.2)
Equipment and busses	2.5	2.0	0.5
Total capital assets	<u>\$ 116.2</u>	<u>\$ 106.7</u>	<u>\$ 9.5</u>

Additional information on the District's capital assets can be found in Note 4 to the basic financial statements.

**Debt Administration.** The general obligation bonded debt of the District is limited by state law to 4% of the fair market value of the total taxable property in the District. The legal debt limit at June 30, 2007 is about \$425 million. Net general obligation debt at June 30, 2007 is \$37.0 million, resulting in a legal debt margin of about \$388 million.

**PARK CITY SCHOOL DISTRICT'S Outstanding Debt**  
**June 30, 2007 and 2006**  
(in millions of dollars)

	Governmental activities		Total
	2007	2006	change 2007-2006
Net general obligation bonds	<u>\$ 37.0</u>	<u>\$ 42.4</u>	<u>\$ (5.4)</u>

Although it is not unusual for governments to have a 30-year bond payoff schedule, the District maintains an aggressive schedule to retire all of its general obligation bonds by 2015.

Additional information on the District's long-term debt can be found in Note 7 to the basic financial statements.

## Enrollment

The District anticipates moderate growth in student enrollment. The following enrollment information is based on the annual October 1 count:

### **PARK CITY SCHOOL DISTRICT'S Enrollment October 1 Count**

<u>School Year</u>	<u>Enrollment</u>	<u>Change</u>
2007-08	4,440	2.4%
2006-07	4,336	-0.7%
2005-06	4,367	3.6%
2004-05	4,214	3.8%
2003-04	4,059	2.6%
2002-03	3,957	0.9%
2001-02	3,923	0.1%
2000-01	3,921	2.9%

## Requests for Information

This financial report is designed to provide a general overview of the Park City School District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Business Administrator, Park City School District, 2700 Kearns Blvd., Park City, UT 84060.

**PARK CITY SCHOOL DISTRICT**  
**Reconciliation of the Balance Sheet of Governmental Funds**  
**to the Statement of Net Assets**  
June 30, 2007

---

**Total fund balances for governmental funds** \$ 29,318,298

Total net assets reported for governmental activities in the statement of net assets is different because:

Capital assets used in governmental funds are not financial resources and therefore are not reported in the funds. Those assets consist of:

Land	\$ 4,928,568	
Construction in progress	20,167,208	
Buildings and improvements, net of \$23,481,589 accumulated depreciation	88,554,328	
Equipment and busses, net of \$2,004,582 accumulated depreciation	2,529,150	116,179,254

Some of the District's property taxes will be collected after year-end, but are not available soon enough to pay for the current period's expenditures, and therefore are reported as deferred revenue in the funds. 1,078,371

Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. Accrued interest for general obligation bonds is: (546,011)

Long-term liabilities that pertain to governmental funds, including bonds payable, are not due and payable in the current period and therefore are not reported as fund liabilities. All liabilities - both current and long-term - are reported in the statement of net assets. Balances at year-end are:

General obligation bonds payable	(37,525,000)	
Bond premium, net of \$17,749 of accumulated amortization	(42,345)	
Deferred amounts on refunding, net of \$599,720 of accumulated amortization	578,674	
Bond issuance costs, net of \$96,543 of accumulated amortization	164,418	
Unpaid vacation	(121,389)	
Voluntary retirement incentive payable	(172,803)	(37,118,445)

**Total net assets of governmental activities** \$ 108,911,467

**PARK CITY SCHOOL DISTRICT**  
**Reconciliation of the Statement of Revenues, Expenditures, and Changes in**  
**Fund Balances of Governmental Funds to the Statement of Activities**  
Year Ended June 30, 2007

---

**Net change in fund balances-total governmental funds** \$ (1,287,532)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$5,000 for land, equipment and busses and \$100,000 for buildings and improvements are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital outlays	\$ 12,126,424	
Proceeds from sales of capital assets	(93,305)	
Loss on sale of capital assets	74,443	
Depreciation expense	<u>(2,586,821)</u>	9,520,741

The governmental funds report bond proceeds as financing sources, while repayment of bond principal is reported as an expenditure. In the statement of net assets, however, issuing debt increases long-term liabilities and does not affect the statement of activities and repayment of principal reduces the liability. Also, governmental funds report the effect of issuance costs and premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. Interest is recognized as an expenditure in the governmental funds when it is due. In the statement of activities, however, interest expense is recognized as it accrues, regardless of when it is due. The net effect of these differences in the treatment of general obligation bonds and related items is as follows:

Principal repayment of general obligation bonds	5,495,000	
Amortization of bond premium	5,584	
Amortization of deferred refunding costs	(126,257)	
Amortization of bond issuance costs	(26,133)	
Interest expense	<u>98,002</u>	5,446,196

Property tax revenues received prior to the year for which they are being levied are reported as deferred revenue in the governmental funds. They are, however, recorded as revenues in the statement of activities. Delinquent property taxes receivable decreased this year.

244,653

In the statement of activities, certain operating expenses - compensated absences (vacations) and termination benefits (voluntary retirement incentive) - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). During this year, unpaid vacation increased by \$15,366 and voluntary retirement incentive payable increased by \$8,346.

(23,712)

**Change in net assets of governmental activities** \$ 13,900,346

**PARK CITY SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the Park City School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

**Reporting entity** – The Board of Education, comprised of five elected individuals, is the primary governing authority for the District. As required by GAAP, these financial statements present the District and its component units, Park City School District Foundation and the parent-teacher organizations of certain schools, legally separate organizations for which the District is considered to be financially accountable. The components units are reported as a separate column in the District’s government-wide financial statements as discretely presented component units; the component units are reported as governmental fund types. Complete financial statements for the Foundation may be obtained at the District’s administrative office.

**Government-wide and fund financial statements** – The *government-wide financial statements* (the statement of net assets and the statement of changes in net assets) display information about the primary government (the District) and its component units. These statements include the financial activities of the overall government, except for fiduciary activities. As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District’s governmental activities. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to a particular function. Depreciation expense for capital assets that can specifically be identified with a function are included in its direct expenses. Depreciation expense for “shared” capital assets (for example, a school building is used primarily for instruction, school administration, operation and maintenance of facilities, and food services) are ratably included in the direct expenses of the appropriate functions. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Interest on general long-term liabilities is considered an indirect expense and is reported in the statement of activities as a separate line. Program revenues include 1) fees and charges paid by students and other recipients of goods or services offered by a given function, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Revenues that are not classified as program revenues, including property taxes, are presented as general revenues.

The *fund financial statements* provide information about the District’s funds, including its fiduciary fund. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

- The *general fund* is the District’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The *debt service fund* accounts for resources accumulated and payments made for principal and interest on general obligation school building bonds.

**PARK CITY SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
*Continued*

---

- The *capital projects fund* accounts for resources accumulated and payments made for the acquisition and improvement of sites, construction and remodel of facilities, and procurement of equipment necessary for providing educational programs for all students within the District.

Additionally, the District reports the following fund type:

- The *student activities agency fund* (a fiduciary fund) accounts for monies held on behalf student groups.

**Measurement focus, basis of accounting, and financial statement presentation** – The *government-wide financial statements* are reported using the economic resources measurement focus. The government-wide financial statements are reported using the accrual basis of accounting, as is the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District receives value without directly giving equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

*Governmental fund financial statements* are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within thirty days after year-end. Property taxes and interest are considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when the District receives cash. Expenditures generally are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, early retirement, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

**Budgetary Data** – The District operates within the budget requirements for school districts as specified by Utah state law and as interpreted by the Utah State Superintendent of Public Instruction. Budgets are presented on the modified accrual basis of accounting for all governmental funds. Budgets are not adopted on a District level for the *student activities agency fund*. All annual appropriations lapse at fiscal year-end with the exception of those indicated as a fund balance reserve. The following procedures are used in establishing the budgetary data reflected in the financial statements.

- By June 1 of each year, the District business administrator prepares a proposed annual budget (for the fiscal year beginning July 1) for all applicable funds. The budget is presented to the Board of Education by the superintendent. This budget includes proposed expenditures and the means of financing them. Also included is a final budget for the current fiscal year ending June 30th.
- Copies of the proposed budget are made available for public inspection and review by the District's patrons.

**PARK CITY SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
*Continued*

---

- If the District does not exceed the certified tax rate, a public hearing is held prior to June 22 at which time the budget is legally adopted by resolution of the Board after obtaining taxpayer input. If the District exceeds the certified tax rate, the budget is adopted in August when data is available to set the rates.
- Once adopted, the budget can be amended by subsequent Board action. The Board upon recommendation of the superintendent can approve reductions in appropriations, but increases in appropriations by fund require a public hearing prior to amending the budget. In accordance with Utah state law, interim adjustments may be made by administrative transfer of money from one appropriation to another within any given fund.
- Certain interim adjustments in estimated revenue and expenditures during the year ended June 30, 2007, have been included in the final budget approved by the Board, as presented in the financial statements.
- Expenditures may not legally exceed budgeted appropriations at the fund level.

Encumbrance accounting is employed in the governmental funds. Encumbrances (e.g., purchase orders and contracts) outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year.

**Deposits and Investments** – The cash balances of substantially all funds are pooled and invested by the District for the purpose of increasing earnings through investment activities and providing efficient management of temporary investments. The pool’s investments are reported at fair value at year-end. Changes in the fair value of investments are recorded as investment earnings. Earnings on pooled funds are apportioned and paid or credited to the funds based on the average balance of each participating fund.

**Receivables and Payables** – Activity between funds that are representative of lending/borrowing arrangements outstanding at year-end are referred to as either “due to/from other funds.”

**Inventories** – Inventories are valued at cost or, if donated, at fair value when received, stated at the lower of average cost or market. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Donated food commodities are recorded as revenue when received.

**Capital Assets** – Capital assets, which include land, buildings and improvements, equipment and busses, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000 for land, equipment and busses and \$100,000 for buildings and improvements and an estimated useful life in excess of two years. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at estimated fair value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets’ lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction is not capitalized. Buildings and improvements and equipment and busses of the District are depreciated using the straight-line method over the estimated useful lives as indicated in the chart on the following page:

**PARK CITY SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
*Continued*

Assets	Years
Buildings	50
Athletic field improvements	20
Musical instruments	20
Kitchen equipment	15
Maintenance equipment	15
School busses and vehicles	10
Copiers	7
Computer equipment and software	5

**Vacation and Termination Benefits** – Under terms of association agreements, employees are granted vacation leave in amounts varying with tenure. In the event of termination or death, an employee is reimbursed for accumulated vacation days. A liability is recorded for vested vacation days in the governmental-wide financial statements.

Under Board policy, the District provides employees a sick leave incentive available to all employees upon their separation from the District. The benefit is up to 25% (based on years of service within the District) of the amount of unused sick leave days allowed to be accumulated using the daily rate of pay at the time of separation. The District records expenditures for sick pay benefits at the time of separation. Expenditures for sick pay have averaged \$50,000 annually. The District is discontinuing this benefit over a ten-year period; accordingly, no liability has been estimated for potential future payments.

Under Board policy, the District provides a voluntary retirement incentive program. Eligibility is restricted to those employees with a minimum of ten years of service in the District who can retire under the provisions of the Utah Retirement Systems (see Note 5.) Those qualifying under this program may receive benefits for up to four years. Benefits are determined by taking a percentage of the difference between the employee's lane and step at the time of retirement and the current lane and step six using contracted amounts. Health insurance coverage is also available to retiring employees qualifying under this program. The District records expenditures for voluntary retirement and related health insurance benefit obligations at the time an eligible employee retires. The District has also designated \$1,500,000 of the general fund balance to finance potential obligations for future retirees.

**Long-term Obligations** – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net assets. Bond premiums and discounts, as well as issuance and refunding costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable unamortized bond premium or discount and refunding costs.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

**Fund Equity** – In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a restricted purpose. Designations of fund balance represent tentative plans for future use of financial resources that are subject to change.

**2. DEPOSITS AND INVESTMENTS**

Deposits and investments are carried at fair value. A reconciliation of cash and investments at June 30, 2007, as shown on the financial statements is as follows:

Carrying amount of deposits	\$ 1,855,034
Carrying amount of investments	33,184,586
	<hr/>
Total cash and investments	\$ 35,039,620
	<hr/> <hr/>
Governmental funds cash and investments	\$ 33,566,378
Fiduciary fund cash and investments	536,983
Component units cash and investments	936,259
	<hr/>
Total cash and investments	\$ 35,039,620
	<hr/> <hr/>

The District complies with the State Money Management Act (Utah Code Section 51, Chapter 7) (Act) and related Rules of the Money Management Council (Council) in handling its depository and investing transactions. District funds are deposited in qualified depositories as defined by the Act. The Act also authorizes the District to invest in the Utah Public Treasurers' Investment Fund (PTIF), certificates of deposit, US Treasury obligations, US agency issues, high-grade commercial paper, banker's acceptances, repurchase agreements, corporate bonds, money market mutual funds, and obligations of governmental entities within the State of Utah.

The PTIF is authorized and makes investments in accordance with the Act. The Council provides regulatory oversight for the PTIF. Participant accounts with the PTIF are not insured or otherwise guaranteed by the State of Utah. Participants in the PTIF share proportionally in the income, costs, gains and losses from investment activities. The degree of risk of the PTIF depends upon the underlying portfolio.

The Act and Council rules govern the financial reporting requirements of qualified depositories in which public funds may be deposited and prescribe the conditions under which the designation of a depository shall remain in effect. The District considers the rules of the Council to be necessary and sufficient for adequate protection of its uninsured bank deposits.

Rules of the Council allow Park City Education Foundation to invest private grants, contributions, and endowments in any deposit or investment authorized by the Act and certain investment funds, equity securities, fixed-income securities, and investment strategies with institutions that meet certain restrictions.

All of the District's investments are with the PTIF. The Foundation has deposits separate from the District and invests private funds through a broker.

**PARK CITY SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
*Continued*

**Deposits** – At June 30, 2007, the District and the Foundation have the following deposits with financial institutions:

	Carrying Amount	Bank Balance	Amount Insured
Park City School District	\$ 953,033	\$ 1,060,057	\$ 158,900
Parent Teacher Organizations	59,504	59,504	59,504
Park City Education Foundation	842,497	816,894	197,624
Total deposits	\$ 1,855,034	\$ 1,936,455	\$ 416,028

- Custodial credit risk – Custodial credit risk for deposits is the risk that, in the event of a bank failure, a government’s deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk. At June 30, 2007, the uninsured amount of the District’s and Foundation’s bank deposits was uncollateralized.

**Investments** – At June 30, 2007, the District and the Foundation have the following investments summarized by investment type and maturities:

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less Than 1	1-5	5-10	More Than 10
Park City School District:					
Utah Public Treasurers'					
Investment Fund (PTIF)	\$ 33,150,328	\$ 33,150,328	\$ -	\$ -	\$ -
Park City Education Foundation, component unit:					
Equity securities mutual fund	17,250	17,250	-	-	-
Corporate bonds	17,008	17,008	-	-	-
Total Foundation	34,258	34,258	-	-	-
Total investments	\$ 33,184,586	\$ 33,184,586	\$ -	\$ -	\$ -

- Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District manages its exposure to interest rate risk by complying with the Act, which requires that the remaining term to maturity of investments to not exceed the period of availability of the funds invested. Except for endowments, the Act further limits the remaining term to maturity on all investments in commercial paper and bankers’ acceptances to 270 days or less and fixed-income securities to 365 days or less. In addition, variable-rate securities may not have a remaining term to final maturity exceeding two years. The Foundation can invest private funds in fixed-income securities with a dollar-weighted average maturity not to exceed ten years.
- Credit Risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District’s policy for reducing its exposure to credit risk is to comply with the Act and related rules. The Act and related rules limit investments in commercial paper to a first tier rating and investments in fixed-income and variable-rate securities to a rating of A or higher as rated by Moody’s Investors Service, Inc. or by Standard and Poor’s Corporation. The District has no investment policy that would further limit its investment choices.

**PARK CITY SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
*Continued*

At June 30, 2007, the District and the Foundation have the following investments subject to credit risk:

Investment Type	Fair Value	Credit Quality Ratings		
		AAA to A	Less than A	Unrated
Park City School District:				
Utah Public Treasurers' Investment Fund (PTIF)	\$ 33,150,328	\$ -	\$ -	\$ 33,150,328
Park City Education Foundation:				
Corporate bonds	17,008	-	17,008	-

- **Concentration of Credit Risk** – Concentration of credit risk is the risk of loss attributed to the magnitude of a government’s investment in a single issuer. The District’s policy for managing this risk is to comply with the Act and related rules. The Act limits investments in commercial paper and or corporate obligations to 5% of the District’s total portfolio with a single issuer. The District places no other limits on the amount it may invest in any one issuer. The Foundation can invest private funds in certain equity and fixed-income securities provided no more than 5% of all funds are invested in any one issuer and no more than 25% of all funds are invested in a particular industry. Also, for the Foundation’s investments in private funds, no more than 75% may be invested in equity securities and no more than 5% in collateralized mortgage obligations.
- **Custodial Credit Risk** – Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The District’s policy for managing this risk is to comply with the Act and related rules. The District places no other limit on the amount of investments to be held by counterparties. The Act requires the Foundation’s public treasurer to have custody of all securities purchased or held or deposit these securities with a bank or trust company to be held in safekeeping by that custodian. The Foundation’s investments held in a brokerage account are covered by Securities Investor Protection Corporation up to \$500,000.

**3. PROPERTY TAXES**

The property tax revenue of the District is collected and distributed by the Summit County treasurer as an agent of the District. Utah statutes establish the process by which taxes are levied and collected. The county assessor is required to assess real property as of January 1 and complete the tax rolls by May 15. By July 21, the county auditor is to mail assessed value and tax notices to property owners. A taxpayer may then petition the County Board of Equalization between August 1 and August 15 for a revision of the assessed value. The county auditor makes approved changes in assessed value by November 1 and on this same date the county auditor is to deliver the completed assessment rolls to the county treasurer. Tax notices are mailed with a due date of November 30.

An annual uniform fee based on the age of motor vehicles is levied in lieu of an ad valorem tax on motor vehicles that is due each time a vehicle is registered. Revenue collected in each county from motor vehicle fees is distributed by the county to each taxing entity in which the property is located in the same proportion in which revenue collected from ad valorem real property tax is distributed. The District recognizes motor vehicle fees as property tax revenue when collected.

**PARK CITY SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
*Continued*

As of June 30, 2007, property taxes receivable by the District includes uncollected taxes assessed as of January 1, 2007 or earlier. It is expected that all assessed taxes (including delinquencies plus accrued interest and penalties) will be collected within a five-year period, after which time the county treasurer may force sale of property to collect the delinquent portion.

**4. CAPITAL ASSETS**

Capital asset activity for the year ended June 30, 2007 is as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
<b>Governmental activities:</b>				
Capital assets, not being depreciated				
Land	\$ 4,928,568	\$ -	\$ -	\$ 4,928,568

For the year ended June 30, 2007, depreciation expense was charged to functions of the District as follows:

<b>Governmental activities:</b>	
Instruction	\$ 1,866,528
Supporting services:	
General administration	21,242
School administration	108,741
Business	20,846
Operation and maintenance of facilities	114,881
Student transportation	307,483
Food services	112,209
Community services	34,891
Total depreciation expense, governmental activities	<u>\$ 2,586,821</u>

The District is obligated at June 30, 2007, under construction commitments (Park City High School of \$28,006,136 and other remodeling and expansion projects of \$511,473) totaling \$28,517,609. Construction in progress recorded as of June 30, 2007 on these projects totaled \$20,167,208 with outstanding

**PARK CITY SCHOOL DISTRICT**

---

commitments of \$8,350,400; the commitments will be financed from a reservation of the capital projects fund balance.

**5. RETIREMENT PLANS**

The District contributes to the State and School Contributory Retirement System and State and School Noncontributory Retirement System which are cost-sharing multiple-employer defined benefit pension plans administered by Utah Retirement Systems (Systems). The Systems provides refunds, retirement benefits, annual cost of living adjustments and death benefits to plan members and beneficiaries in accordance with retirement statutes.

The Systems are established and governed by the respective sections of Chapter 49 of the Utah Code Annotated 1953, as amended. The Utah State Retirement Office Act in Chapter 49 provides for the administration of the Systems and Plans under the direction of the Utah State Retirement Board whose members are appointed by the Governor. The Systems issue a publicly available financial report that includes financial statements and required supplementary information for the State and School Contributory Retirement System and State and School Noncontributory Retirement System. A copy of the report may be obtained by writing to Utah Retirement Systems, 540 East 200 South, Salt Lake City, UT 84102 or by calling 1-800-365-8772.

Plan members in the State and School Contributory Retirement System are required to contribute 6.00% of their annual covered salary (5.00% paid by the District for the employee) and the District is required to contribute 9.73% of their annual covered salary. In the State and School Noncontributory Retirement System, the District is required to contribute 14.22% of their annual covered salary. The District contribution rates are the actuarially determined rates. The contribution requirements of the Systems are authorized by statute and specified by the Utah State Retirement Board.

The District's contributions to the State and School Contributory Retirement System for the years ended June 30, 2007, 2006, and 2005 were \$67,514, \$80,062, and \$88,342, respectively, and for the State and School Noncontributory Retirement System the contributions for the years ended June 30, 2007, 2006, and 2005 were \$2,498,461, \$2,184,213, and \$2,035,096, respectively. Employee contributions to the State and School Contributory Retirement System for the years ended June 30, 2007, 2006, and 2005 were \$4,582, \$5,764, and \$6,360, respectively. The contributions were equal to the required contributions for each year.

The District participates in a deferred compensation plan – under Internal Revenue Code Section 401(k) – to supplement retirement benefits accrued by participants in the Systems. Employees covered by the noncontributory plan have a contribution of 1.5% of salary automatically made by the District. During the years ended June 30, 2007, 2006, and 2005, employer contributions were \$287,251, \$284,126, and \$251,186, respectively. Employees, who are participants in the Systems, can make additional contributions to the 401(k) plan. These employee contributions were \$629,968, \$602,867, and \$529,631, for the same periods. The 401(k) plan funds are fully vested to the participants at the time of deposit. Plan assets are held by the Systems.

The District also offers its employees a deferred compensation plan under Internal Revenue Code Section 457 allowing employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. Employee contributions to the Section 457 plan totaled \$34,308, \$52,044, and \$13,500, for the years ended June 30, 2007, 2006, and 2005, respectively. Section 457 plan assets are held by the Systems.

**PARK CITY SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
*Continued*

**Voluntary Retirement Incentive** – The District provides a voluntary retirement incentive program. Eligibility is restricted to those employees with a minimum of ten years of service in the District, and who meet the eligibility requirements for and will be receiving Utah State Retirement System benefits. The District's direct payments to retirees in the years ended June 30, 2007 and 2006 were \$66,102 and \$44,328, respectively. Future retirement payments for employees who have elected early retirement are recognized on an accrual basis as an expense in the government-wide statements in the year of retirement. This liability is paid primarily from the general fund.

**6. RISK MANAGEMENT**

The District maintains insurance coverage for general, automobile, personal injury, errors and omissions, employee dishonesty, and malpractice liability up to \$10,000,000 per occurrence through policies administered by the Utah State Risk Management Fund. The District pays an annual premium to the Fund. The District also insures its buildings, including those under construction, and contents against all insurable risks of direct physical loss or damage with the Utah State Risk Management Fund. This all-risk insurance coverage provides for repair or replacement of damaged property at a replacement cost basis subject to a deductible of \$1,000 per occurrence. Settled claims have not exceeded the District's insurance coverage for any of the past three years. The District also maintains a public treasurer's fidelity bond of \$1,350,000, with a private carrier.

All District employees are covered for workers compensation by the Utah Local Governments Trust. Unemployment insurance is covered by the District on a pay-as-you-go basis; settled claims for the past three years have been insignificant.

**7. LONG-TERM LIABILITIES**

Long-term liability activity for the year ended June 30, 2007 is as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
General obligation bonds	\$ 43,020,000	\$ -	\$ (5,495,000)	\$ 37,525,000	\$ 5,705,000
Bond premium	47,929	-	(5,584)	42,345	-
Deferred amounts on refunding	(704,931)	-	126,257	(578,674)	-
Net bonds payable	42,362,998	-	(5,374,327)	36,988,671	5,705,000
Unpaid vacation	106,023	120,000	(104,634)	121,389	97,111
Voluntary retirement incentive payable	164,457	74,448	(66,102)	172,803	109,342
Total long term liabilities	<u>\$ 42,633,478</u>	<u>\$ 194,448</u>	<u>\$ (5,545,063)</u>	<u>\$ 37,282,863</u>	<u>\$ 5,911,453</u>

**General Obligation Bonds** – The District issues general obligation bonds to provide funds for the construction of new facilities, acquisition of property, renovation and improvement of facilities, and procurement of school equipment. General obligation bonds are direct obligations and pledge the full faith and credit of the taxpayers in the District. Payments on the general obligation bonds are made by the debt service fund from property taxes.

The annual requirements to amortize all general obligation bonds outstanding as of June 30, 2007, including interest payments are listed as follows:

**PARK CITY SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
*Continued*

Year Ending June 30,	Principal	Interest	Total
2008	\$ 5,705,000	\$ 1,361,713	\$ 7,066,713
2009	5,930,000	1,161,244	7,091,244
2010	5,535,000	957,813	6,492,813
2011	5,050,000	746,690	5,796,690
2012	4,330,000	552,398	4,882,398
2011-2015	<u>10,975,000</u>	<u>770,711</u>	<u>11,745,711</u>
	<u>\$ 37,525,000</u>	<u>\$ 5,550,569</u>	<u>\$ 43,075,569</u>

The general obligation bonded debt of the District is limited by state law to 4% of the fair market value of the total taxable property in the District. The legal debt limit at June 30, 2007, is about \$425 million with net general obligation debt outstanding of \$37 million, resulting in a legal debt margin of about \$388 million.

General obligation school building bonds payable at June 30, 2007, with their outstanding balance are comprised of the individual issue as follows:

Purpose	Interest Rates	Outstanding Amount
\$10,000,000 general obligation school building bonds, issued January 1, 2000, maturing February 1, 2010	5.15% to 5.20%	\$ 3,450,000
\$9,460,000 general and refunding school building bonds, issued May 1, 2001, maturing August 1, 2014	4.125% to 4.70%	4,535,000
\$19,605,000 general obligation refunding bonds, issued October 1, 2002, maturing February 1, 2012	3.00% to 4.00%	16,580,000
\$10,000,000 general obligation school building bonds, issued March 15, 2004, maturing February 1, 2015	2.00% to 3.25%	8,160,000
\$5,000,000 general obligation school building bonds, issued April 1, 2005, maturing February 1, 2015	3.00% to 3.85%	<u>4,800,000</u>
Total		<u><u>\$ 37,525,000</u></u>

**PARK CITY SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
*Continued*

---

**Defeasance of Debt** – On October 1, 2002, the District defeased certain general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. At June 30, 2007, \$16,205,000 of bonds outstanding is considered defeased.

**8. LITIGATION AND LEGAL COMPLIANCE**

There are lawsuits pending in which the District is involved. The District's counsel and insurance carriers estimate that the potential claims against the District, not covered by insurance, resulting from such litigation would not materially effect the financial statements of the District.

All funds balances are positive at June 30, 2007. Fund expenditures exceeded budgeted amounts by \$96,645 or 1.4% for the debt service fund for the year ended June 30, 2007.

**9. GRANTS**

The District receives significant financial assistance from federal and state governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the District's independent auditors and other governmental auditors. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable fund. Based on prior experience, District administration believes such disallowance, if any, would be insignificant.

Note: Tax rates are levied for the calendar year. For example, calendar year 2006 tax rates are for the District's fiscal year ended June 30, 2007.

Redemptions of prior-year taxes are allocated using current tax rates. Collections will differ from tax revenue reported in the financial statements depending on the basis of accounting used.
